1.4 Book Detail Page - Syndetics Enrichment

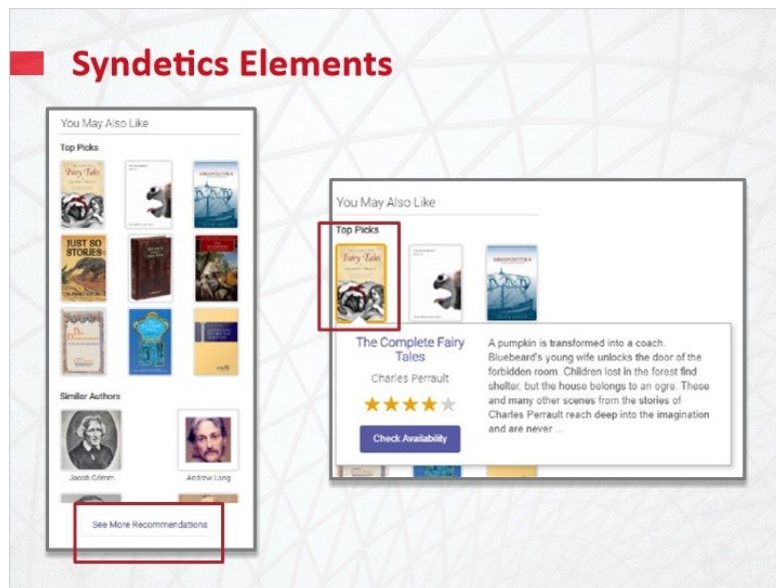

Notes:

Some of the most popular features from the Syndetics Unbound catalog enrichment product may be included with your Academic Complete subscription. They are located on the right of the ebook detail page, and incorporate the following enrichment elements: “You May Also Like” recommendations; “About the Author”; Resources for College Libraries; Reader Reviews; Awards, Tags; and Altmetric badges.

These enhancements allow researchers to make connections between content they initially find and additional content to which they have access, serendipitously leading them to titles they may not have otherwise discovered.

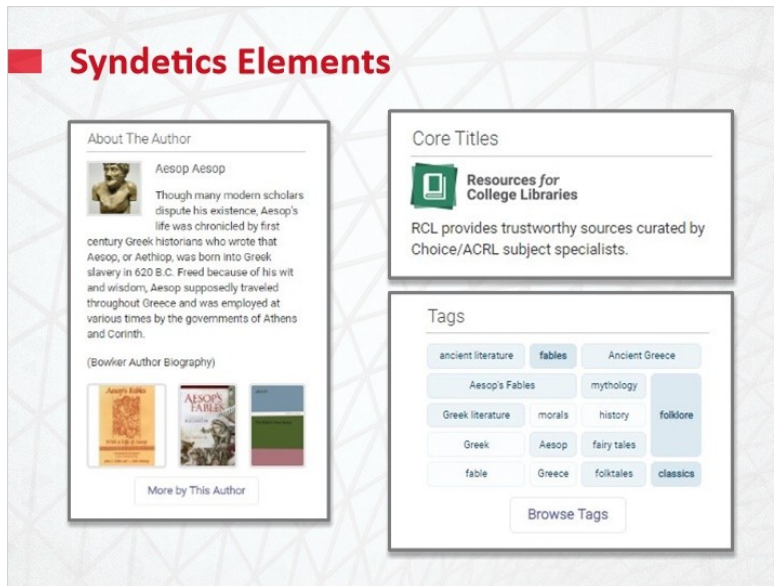

1.5 Syndetics Elements - You May Also Like

Notes:

The “You May Also Like” section gives on the spot recommendations based on the library’s Ebook Central holdings. Open up the panel to link to additional recommendations. Hover over specific titles to see more about that title. Other Syndetic enrichment elements also include options to see more when available.

1.6 Syndetics Elements - About the Author, RCL, tags

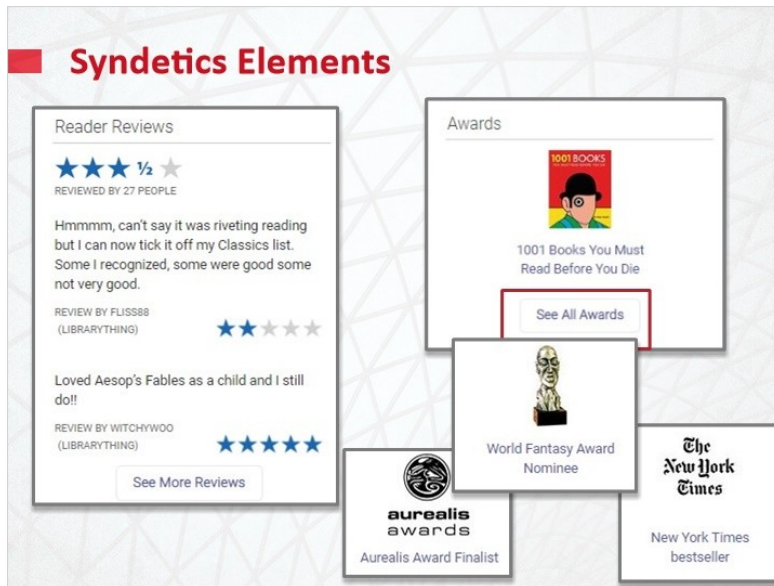

Notes:

About the Author provides a biography and photo for the author, and additional works available in the collection.

The Resources for College Libraries enrichment allows researchers to select or browse "core titles" that are specially curated by ACRL/Choice subject specialists.

Clickable tags can be combined or filtered to hone in on the subjects and categories you want to explore. The more than 131 million tags are created by LibraryThing members and vetted by librarians for quality.

1.7 Syndetics Elements - Reader Reviews, Awards

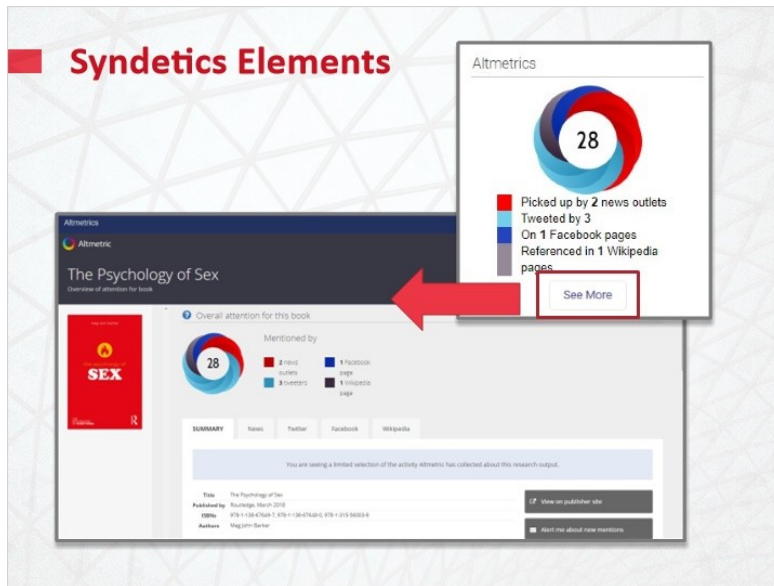

Notes:

Reader Reviews offer insight for title evaluation, and include more than 1.5 million vetted reviews from Library Thing members.

Awards highlight honors a title has received, and help patrons find other highly-awarded books in your collection. Well-known awards like the National Book Award, Booker Prize and Prose Awards, as well as smaller awards, are included.

1.8 Syndetics Elements - Altmetrics badges

Notes:

An Altmetric badge gives a visual snapshot of the online activity surrounding a book, tracking news outlets, academic blogs, social media channels, syllabi and many other sources. This demonstrates the reach and influence of the work, promotes credibility of the content and showcases interactions.

On the Altmetric details page, get a deeper view of the conversations surrounding the research output in one place.
